

Dell 2400MP Projector

Dell | Displays

Quality

Dell projectors are designed to our exacting quality standards and manufactured by the world's foremost suppliers, who must pass Dell's stringent quality audit. All Dell projectors are designed to meet or exceed all relevant industry standards.

Reliability

Dell projectors undergo exhaustive testing for performance, reliability, durability and compatibility with Dell systems. Under our H.A.L.T. (Highly Accelerated Life Cycle Testing) regimen, Dell engineers push our products well past specified tolerance limits for heat, cold, vibration, shocks and drops to ensure that they can withstand real-world conditions.

Dell Value

Dell's direct business model allows us to offer high quality projectors at low prices. Dealing with Dell means a single point of contact and accountability. We also offer a wide variety of service offerings to assure peace of mind for you. Knowing that Dell has been a trusted technology supplier for 20 years allows you to buy with confidence from a stable and reliable technology partner.

The new Dell™ 2400MP Projector delivers the performance and ease of use you've come to expect from Dell. Our new projector delivers 2100:1 contrast ratio and a stunning 3000 lumens max¹ for performance that will wow any audience – at a price that won't require a new line of credit. Dell 2400MP also utilizes new color-processing technology from Texas Instruments called BrilliantColor™ to enable high brightness for both business projectors.

Since it's a Dell, the 2400MP provides seamless plug-and-play functionality with currently shipping Dell Latitude™ and Inspiron™ notebooks.

Think it's complicated to operate such a powerful projector? Think again! Our Quick Setup guides get you up and running in six easy steps. Preset and user-defined video modes let you quickly get to optimum graphic and video settings. The 2400MP is so smart it will even power itself off after a few minutes.

The 2400MP comes with everything you need to get up and running right away, including the remote control, a shock and vibration testing hard foam carrying case, video cables, and a 2000 hour lamp. Of course, you can get even more runtime from your lamp – up to 2500 hours – by using the preinstalled Eco-mode settings. You also get a 1 Year Limited Warranty² with Advanced Exchange Service³ (90 days on the lamp) with longer warranties up to three years also optionally available.

At less than 5.5 pounds, the 2400MP is also highly portable. If you prefer to ceiling mount your projector, we have optional ceiling mount kits.

Key Specifications:

- Projector Type: Single chip DLP™ LVDS technology
- Brightness: 3000 ANSI Lumens (max)¹
- Contrast Ratio: 2100:1 (Full On/Full Off)
- Resolution: XGA (1024 x 768)
- Deployable Colors: 16.7 Million
- Weight: 5.5 lbs (2.5kg)
- Dimensions: 10.8 x 8.3 x 4.0 (274 x 212 x 101mm)
- Image Adjustment: integrated zoom lens and Automatic Vertical keystone correction
- Projection screen size: 24.6 – 295.3" diagonal (62.5 - 750cm)
- Projection distance: 1.2 – 12 m (3.9 – 39.4 feet)
- Video compatibility: NTSC, NTSC 4.43, PAL (B/D/G/H/I/M/N), SECAM (B/D/G/K/L) and HDTV (480i/P, 576i/P, 720P, 1080i) compatible
- Zoom: manual, 1.2X
- Lamp wattage: 260W
- Lamp life: 2000 hours (Typical) (2500 hours in Eco-mode)
- Power consumption: 325W at full power (285W at Eco)
- Power supply: Universal 100-240V AC 50/60 Hz
- I/O Connectors: AC power in, VGA in (15 pin D-sub), VGA out, USB 1.1 (1), RGB/Component (via DB15), S-Video, RCA, Audio in and out ports.
- Ships with basic remote control, VGA, S-video, Composite Video, USB, VGA to Component, Mini Pin to Mini Pin and RCA to phone jack cables
