

ARIZONA GEOLOGICAL SOCIETY
DIGEST

VOLUME VII

TUCSON, ARIZONA

NOVEMBER, 1964

ARIZONA GEOLOGICAL SOCIETY

OFFICERS for 1964-65

John Journeay, Pima Mining Company	President
G. Arthur Barber, The Anaconda Company	Vice President
Philip Seff, Agricultural Research Service	Secretary
James D. Sell, American Smelting and Refining Company ..	Treasurer

COUNCILORS

John W. Anthony	University of Arizona
James L. Kelly	The Anaconda Company
M. E. Cooley	U. S. Geological Survey
C. B. Richardson	Consultant
S. H. Congdon	Consultant
D. F. Hammer	Magma Copper Company
J. F. Lance	University of Arizona

The Digest is issued periodically by the Society as an informal bulletin intended to present technical papers and progress reports of research bearing on geological problems of Arizona in particular and the Southwest generally. The editor welcomes such papers as well as notes and news of geological and related activities within this broad framework.

Edgar J. McCullough, Editor
Department of Geology
University of Arizona
Tucson, Arizona

CONTENTS

	Page
On understanding geochronological time. By TERAH L. SMILEY	1
Ten writing rules for writing geologists. By THOMAS W. MITCHAM	13
On the orientation of crystals in porphyritic rocks. By F. RICHARD YEATTS	17
Virtual geomagnetic pole positions for North America and their suggested paleolatitudes. By R. L. DUBOIS	35
Rock-magnetic data and its use in geophysical interpretations. By R. L. DUBOIS	53
Potassium-argon dating of post-Laramide plutonic and volcanic rocks within the Basin and Range province of southeastern Arizona and adjacent areas. By PAUL E. DAMON and MICHAEL BIKERMAN	63
Occurrence of linears in the Tucson south quadrangle, Pima County, Arizona. By JAMES E. SHERMAN and ALLEN W. HATHEWAY	79
Trace-element investigation of the "Turkey Track" porphyry, southeastern Arizona. By JAMES E. MIELKE	87
Structure of the eastern Hualpai Indian Reservation, Arizona. By DONALDSON KOONS	97
Petrography and origin of the 111 Ranch Cherts, Graham County, Arizona. By PHILIP SEFF	115
Folds in gneiss beyond north Campbell Avenue, Tucson, Arizona. By EVANS B. MAYO	123
The West San Xavier mine, keys to a district. By THOMAS W. MITCHAM and L. CLARK ARNOLD	147
A critical study of the evidence of late Neogene faulting at McGee Mountain, Mono County, California. By EARL M. P. LOVEJOY	153
Projects of the Arizona Bureau of Mines. By J. D. FORRESTER	171
