Morphological Data on Some Minerals from the Cliff Vein, Keweenaw County, Michigan. By S. A. Williams	177

ARIZONA GEOLOGICAL SOCIETY
OFFICERS FOR 1966-67

DONALD BRYANT, Department of Geology.....*President*
TERAH L. SMILEY, Geochronology.....*Vice-President*
JOHN E. FROST, Duval Corporation.....*Secretary*
JOHN M. GUILBERT, Department of Geology.....*Vice-Secretary*
GLENTON SYKES, Tucson, Arizona.....*Treasurer*
DONALD A. HOLM, Consultant.....*Vice-Treasurer*

COUNCILORS

ROGER K. KIRKPATRICK.....American Smelting and Refining Co.
JOHN S. SUMNER.....Professor of Geology
STEPHEN H. CONGDON.....Consultant
JOHN F. LANCE.....Professor of Geology
DONALD F. HAMMER.....Magma Copper Co.
M. E. COOLEY.....USGS Ground Water Branch
CARL B. RICHARDSON.....Consultant
J. DAVID LOWELL.....Consultant

The Digest is issued periodically by the Society as an informal bulletin intended to present technical papers and progress reports of research bearing on geological problems of Arizona in particular and the southwest generally. The editor welcomes such papers as well as notes and news of geological and related activities within this broad framework.

ROBERT L. DUBOIS, *Editor*
Department of Geology
University of Arizona
Tucson
